Washington, DC 20554

Dear FCC Commissioners,

This letter is to make you aware of a conference call held on Friday, November 12, 2010 a result of an email I sent to Mr. Ernesto Beckford of the FCC Staff in which I requested information regarding the process for making an NPRM filing for certain rules changes as they relate to the USF Rural Health Care program on behalf of MiCTA, a national non-profit organization. Present on the conference call were Ernesto Beckford, Chin Yoo and Jamie Susskind.

In the conference call we discussed the content of the email sent to Ernesto and the fact that MiCTA will be submitting a request for (2) rules changes related specifically to the form 465 processes. Discussion also took place related to the fact MiCTA is comprised of a very diverse non-profit membership and currently provides its eligible K-12 and Library members national E-Rate support thru (3) certified Multi-Year 470's it filed on their behalf.

We appreciate the FCC Staff's time in this matter and the information they provided.

Respectfully,

Gary L. Green
MiCTA Consultant
USF E-Rate/RHC national programs
